

## **X-RAY OPTICAL SYSTEMS, INC. TO OPEN NEW SERVICE CENTER, EXPANDS CAPABILITIES IN THE GULF COAST REGION**

**EAST GREENBUSH, NY (New York) – (April 25, 2021)** - On May 1st, 2021, X-ray Optical Systems, Inc. (XOS), a global leader in application-specific elemental analysis solutions for petroleum, environmental services, and other industries, will launch a new satellite service center in La Marque, Texas, expanding its presence in the Gulf Coast Region

Managed out of the company headquarters and staffed by XOS technical experts, the new service center will be housed within the brand-new facility of Choice Analytical, a distributor of XOS lab solutions for the petroleum industry since 2009, the new service center will allow XOS to provide outstanding support and quality service throughout the Gulf Coast region, thus reducing turnaround time and decreasing downtime for stakeholders.

“This new service center allows us to expand our capabilities to support our extensive customer base throughout the Gulf Coast region”, said Jason Choi, VP Sales & Service at XOS. “With a new space directly in the heart of the region, XOS can now deliver its deep expertise through technical support and exceptional customer service to our customers right where we’re needed most in the U.S.”
